From the major publishers to favorite small press houses, these are the titles that have garnered approval and awards from professionals and fans alike. We've got a host of recommended titles from which to choose, and plenty of others marked throughout this issue, including the late Harvey (*American Splendor*) Pekar's final work, ***Cleveland***, from Top Shelf. Harvey's wife and frequent collaborator, Joyce Brabner, talked to us about Harvey, the city of Cleveland, comics, and more in our exclusive interview, starting on page 222.

USER'Sguide

PREVIEWSworld.com

At first glance, *PREVIEWS* can be overwhelming because it's packed with tons of cool stuff. But there's a rhyme and reason to this mag-a-log and here's how to use it!

You now hold in your hands the latest issue of *PREVIEWS*, the monthly mag-alog dedicated to comics, graphic novels, toys and other pop-culture merchandise. If it's in your comic shop, it's in the page of *PREVIEWS*!

PREMIER COMICS BOOKS & MAGAZINES TRADING CARDS APPAREL MERCHANDISE GAMES VIDEOS

What is *PREVIEWS*?

PREVIEWS is part magazine, part catalog—a "mag-alog" of all comics and pop-culture merchandise found at your local comic shop.

We've broken down the product listings by easy-to-understand sections: Comics & Graphic Novels; Books; Trading Cards; Toys, Statues & Models, and more.

Each month, you'll find detailed listings for almost every comic book and pop-culture product that will be available in comic shops in 2 months. So, if you're looking at the April issue of ***PREVIEWS***, most items will be in comic shops sometime in June.

How do I order from *PREVIEWS*?

Ordering from ***PREVIEWS*** is easy! There are **3** simple ways to order:

1 Use the Short Order Form.
Fill in with the items you'd like to order from this issue.

2 Ask for the companion Customer Order Form.
We offer a companion order form that features a complete listing of every product offered in that month's issue of ***PREVIEWS***. Fill out what you want to order and hand in to your comic ship by the due date on the cover!

3 Ask your retailer about their "Pull & Hold" service.
Many retailers offer a "pull & hold" or subscription service where you can order your monthly comics and merchandise easily. They'll hold your orders for you and you can pick up your items when it's convenient for you! Be sure to ask your retailer to give you a copy or ***PREVIEWS***, Marvel ***PREVIEWS***, and the ***PREVIEWS*** Customer Order Form each month so you can place your orders easily!

Not sure where to find a local comic shop?

Visit the comic shop locator service website at www.comicshoplocator.com, or call 1-888-COMIC BOOK for a listing of comic shops near you!

SEASONS GREETINGS!

EDITOR'S *note*

I can't believe another year has come and gone so quickly! It seems like it was only summer last week… and then there was the earthquake (sixth floor shakes!), the hurricane (lights out!), and the day-to-day mishaps and missteps that make this job, and this place, so much "fun". But you know what? It is fun — and fulfilling — when that new issue arrives from the printers, all fresh and smelling of ink and awesome… it's like a mini-holiday every month! That new issue, filled with the coolest stuff on earth, is why we do this each and every month.

So, for myself and the entire ***PREVIEWS*** crew, as well as the rest of the swell folks here at Diamond Comic Distributors, Happy Holidays! It's our pleasure to bring you our publication every month, and its your continued readership that truly makes it all worthwhile for us!

Join me here next month for the first issue of 2012!

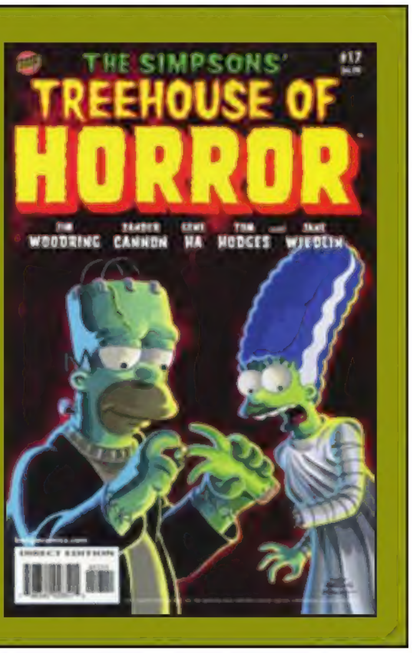
This month's featured creator is...

JIM WOODRING

I live in Seattle and work in my attic, dining room and basement. I draw comics, make paintings and charcoal drawings, and try to master the seven-foot dip pen I had built last year. My most recent books are ***Weathercraft*** (FEB100912) and ***Congress of the Animals*** (FEB111042).

Jim Woodring, what are your favorite projects you've contributed to over the past decade?

Working with Bill Frisell on various multimedia projects has been the best collaborative experience of the past decade for me, but being allowed to contribute a story to ***The Simpsons' Treehouse of Horror* #17** was also terrific because I got to work with my son Max!



For Your Reading Pleasure, Jim Woodring Recommends These Personal Favorites...

Keith Knight's ***The Complete K Chronicles*** (MAR080037) is the book that has given me the biggest lift lately. Cartoonists who are smart, thoughtful and funny are rare, and Keith's work is like some powerful rejuvenating tonic for me. Carol Tyler's ***You'll Never Know*** (JUL101012) series is magnificent in every way. She's such a natural and has so much to convey. And Gilbert and Jaime Hernandez are still at the top of their game with *Love and Rockets*, an almost inconceivable accomplishment when you consider how good they've been for how long... twenty eight years or something like that!

EVIL AWAKENS IN LAS VEGAS IN VENOM: CIRCLE OF FOUR

Las Vegas. A seedy metropolis of glitz and sleaze, rising from the barren wasteland of the Nevada desert. Some call Vegas "Sin City." Others say that "What happens in Vegas stays in Vegas." What few know, however, is that, among the casinos and nightclubs, an unspeakable evil dwells there. When it unleashes Hell on Earth its evil, its sin won't stay in Vegas, and it will take an unlikely quartet of heroes to smite the evil and save the Earth in February's *Venom: Circle of Four* story arc!

Venom, the alien-powered government super soldier. Ghost Rider, the spirit of vengeance. Red Hulk, the living embodiment of gamma-powered rage. X-23, the genetically-engineered clone of the mutant berserker Wolverine. In Venom: Circle of Four these four heroes will put aside their differences and band together, like the Four Horsemen of the Anti-Apocalypse, to contain the evil emanating from Las Vegas, battle their worst enemies, and confront their own inner demons!

Circle of Four runs through six issues of Venom — five weekly issues in February and the concluding chapter in March — spearheaded by *Venom* writer Rick Remender. Artist Tony Moore joins Remender for the first chapter in *Venom* #13, then Remender, *Hulk* writer Jeff Parker, and *Ghost Rider* writer Rob Williams work with artists Lee Garbett (*Venom* #13.1), Sana Takeda (*Venom* #13.2), Julian Totino (*Venom* #13.3), and Lan Madina (*Venom* #13.4). Stefano Caselli provides covers for all five issues, with the covers to chapters two through five spotlighting each of the characters in turn and creating a connecting montage of the four heroes in battle.

Hell is about to walk the Earth this February, and it will take four unique heroes to rise to the challenge! What happens in Vegas this time *won't* stay there. *Venom: Circle of Four* is a senses-shattering event as only Rick Remender, co-writers, and artists can provide!

AN UNLIKELY QUARTET OF HEROES MUST CONFRONT AN EVIL THAT WILL CONSUME THE EARTH IN THE WEEKLY EVENT, VENOM: CIRCLE OF FOUR!

THE ORIGINS OF THE JEDI ARE AT LAST REVEALED IN DARK HORSE'S NEW SERIES

For a thousand generations, the Jedi Order has kept the peace in the Galactic Republic. This order of warrior monks calls upon the power of the Force, wielding both their hard-earned wisdom and their lightsabers, to mediate disputes from the galaxy's Inner Core to its Outer Rim. But where did they come from? How did the first warrior monks discover the power of the Force that flows through everything? How was the lightsaber developed? How did their mystical order form? And how did they become the champions of order in the Galactic Republic?

These long-standing questions of the *Star Wars* universe will be revealed in 2012 as Dark Horse Comics takes *Star Wars* fans far back into the misty pre-history of George Lucas' legendarium in their new mini-series, Star Wars: Dawn of the Jedi!

John Ostrander and Jan Duursema, the fan-favorite team of the acclaimed *Star Wars: Legacy* series, set over a century after the time of Luke Skywalker, travel back to the very beginnings of the galaxy far, far away to reveal the mythic age of the Jedi's origin. This was a time before lightsabers, when the mysteries of the Force were just being discovered. At the center of the galaxy, an order of warrior arises, and they will confront the challenges of both the mysterious pyramid ships of the Tho Yor and the enigmatic stranger who will upset the balance and peace of those legendary times.

The epic story of the Jedi's origins is at last told, as only two masters of the *Star Wars* universe can tell it! The saga begins with the prelude issue *Star Wars: Dawn of the Jedi* #0 on February 1st, followed by *Star Wars: Dawn of the Jedi* #1 two weeks later. This is where George Lucas' galaxy-spanning tale begins!

Video game studio BioWare revolutionized the action RPG genre with their science-fiction series *Mass Effect*. In the 22nd-century, Commander Shepard commands the *SSV Normandy* on a mission through the galaxy to save humanity from an alien race. His starship, destroyed at the beginning of *Mass Effect 2*, is rebuilt by the Cerberus organization, and now Dark Horse Comics brings fans of the series an impressive reproduction of the second *Normandy* with their *Mass Effect: Normandy SR-2 replica!* Measuring 8" long, this model is based on the CGI files created by BioWare for the final game in the trilogy, *Mass Effect 3*, this time with an antique silver finish, making this a unique collectible that no *Mass Effect* fan will want to miss!

368 LEXI DISCOVERS A TASTE FOR STEAMPUNK WITH DST'S NEW FEMMA FATALES STATUE

At conventions over the past decade, more and more con-goers dress in the steampunk style — Victorian-styled apparel in brown tones, with gears and goggles and strange apparatuses, all part of an ethos where the industrial revolution met with strange science. Diamond Select Toys joins the steampunk movement with the latest *Femme Fatales* statue — the *Steampunk Lexi Statue!* Dressed in alluring steampunk attire, Lexi completes the ensemble with the trademark steampunk goggles and pistol. Standing 9" tall, the Steampunk Lexi is the perfect addition to the collection of any weird science fan!

Today's battlefield isn't just about the uniformed soldier in service to his country; there's also the contractor, who answers to the corporation. Call them mercenaries, soldiers-for-hire, or private military operators, they are a new breed of combatant in today's conflicts.

SHOOTER is the story of Terry Glass, a warrior whose spirit and soul has been hardened in countless battles. When a horrible accident shatters his world, Glass finds himself waging a private war on several fronts – against his career, his marriage, and ultimately, his faith.

Written by Eric S. Trautmann (CHECKMATE, *Red Sonja, Flash Gordon*) and Brandon Jerwa (*G.I. Joe, Battlestar Galactica, Highlander*), and drawn by Eisner Award-winning artist Steve Lieber (*Underground, Whiteout,* ROAD TO PERDITION: ON THE ROAD), SHOOTERS tells a story of modern warfare that will stay with you forever.

Before introducing the modern version of The Sandman, Neil Gaiman wrote this dark tale that reinvented a strange DC Comics Super Hero in the Vertigo mold. Featuring spectacular painted art by Dave McKean, the 4-issue BLACK ORCHID miniseries is now collected in hardcover for the first time.

After being viciously murdered, Susan Linden is reborn as the Black Orchid, a hybrid of plant and human, destined to avenge her own death. Now, as this demigoddess attempts to reconcile human memory and botanical origins, she must untangle the webs of deception and secrets that led to her death. Beginning in the cold streets of a heartless metropolis and ending in the Amazon rainforest, this book takes the reader on a journey through secrets, suffering and self-rediscovery.

Upon making the ultimate sacrifice, Sirian finds himself caught amidst time and space as strange beautiful music resonates throughout the cosmos, heralding the arrival of **Joe Satriani**–the Extremist himself–seeking to guide the lost and bring harmony to dissonance. OTTO SOGLOW'S MOST FAMOUS CREATION WAS A SUNDAY FUNNIES MAINSTAY FROM 1934 UNTIL 1975!
JUSTIN EISINGER, SENIOR EDITOR, POET LAUREATE OF OHIO.

A BIG BOOK FOR A LITTLE KING! A long-overdue examination of the unique pantomime cartoons of **Otto Soglow**, who entertained millions for more than fifty years and whose influence remains current in the works of **Chris Ware**, **Daniel Clowes**, **Ivan Brunetti**, and others. This compendium features hundreds of pages of Soglow's most famous creation, *The Little King*–plus copious examples of his other work and a fascinating account by **Jared Gardner** of Soglow's long career that ranged from the socialist magazines of the 1920s to his long association with *The New Yorker*, which continues to use Soglow's art thirty-five years after his death.

Soglow began experimenting with eliminating lines that weren't necessary while at *The New Yorker*, where he created *The Little King* in 1931. Lured by **William Randolph Hearst**, Soglow moved to the Sunday comics section with *The Ambassador* until his contract with *The New Yorker* ended in 1934. The Ambassador led the way–in more ways than one–for the King, who remained a Sunday funnies mainstay until Soglow's death in 1975.

Much of the humor in *The Little King* is aimed at puncturing pomposity, and Soglow accomplishes it with drawings that are, as Brunetti points out, tightly composed, exquisitely timed, carefully structured pieces of machinery.

Otto Soglow's process of streamlining is at the root of why his cartoons have a timeless sophistication and elegance, and continue to entice new readers and cartoonists. It's high time for such a fitting tribute to this cartoon monarch.

The sensational sixties, a time of dreams, hopes, revolution, and social change! But Archie Comics was also around to remind everyone "the more things change, the more they stay the same!" Whether getting tangled up in the eternal love triangle or incurring the wrath of the principal and Veronica's father, Archie scaled new heights of hilarity!

Great Picks in Graphic Lit

Comics have come a long way from their earliest origins in the 1930s. In those formative years, most "comic books" were merely collections of newspaper strips of the day. It wasn't until the mid-30s that new material began to crop up, and the term "comic book" took on a new meaning. Those early comics weren't just superheroes and funny animals… pilots, explorers, detectives, magicians, students and many more, most inspired by the pulp magazines that pre-dated the comics. Something for everyone.

The same thing can be said for today's modern comics. While superheroes continue to dominate, it is the quieter, more personal works that tend to garner our industry's highest honors. Whether it is through critical acclaim, or by awards such as the *Harvey*, the *Eisner*, *the Ignatz* or the *Kirby*, these works by some of today's talented writer/artists go above and beyond what comics are, to something much more.

This month, ***PREVIEWS*** does its best to honor these talented creators by drawing your attention to some of our favorites; critically acclaimed or award winning works of Graphic Literature that challenge the reader, opening them to new worlds and new experiences and, most of all,

GREAT PICKS IN GRAPHIC LIT

FOR HARVEY, COMICS, AND CLEVELAND

THE
JOYCE
BRABNER
INTERVIEW

Photo courtesy of Seth Kushner

Joyce Brabner has been around comics — and reading — for a majority of her life. And it was her love of reading which eventually lead her to contact Harvey Pekar by mail when her comic shop sold out of the latest issue of *American Splendor* before she could read it. They grew closer through their correspondence, and when they eventually met face-to-face, they knew the next day that they should marry. And did. On their third date.

Over the years, in between writer various politically-charged comics projects and contributing her time and energy to various social programs and cause, Joyce also worked with Harvey on American Splendor, working behind the scenes on the series as well as playing a character in the series itself.

Cleveland is one of Harvey Pekar's final projects; a love letter of sorts to the city he called home, as well as an autobiographical record of his years in the city, with Joyce. As the publication of Cleveland nears, Joyce was kind enough to sit down and talk with us about what could be Harvey's most personal project, and Joyce's own project to build a lasting monument to her late husband…

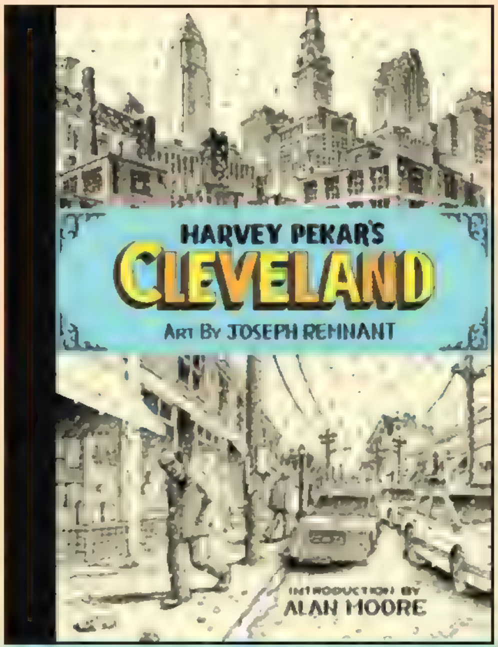
PREVIEWS: What will American Splendor fans, and those new to Harvey Pekar's work, find unique about Cleveland?

Joyce Brabner: Well, it shows off the prowess of an extraordinary young artist, someone Harvey was tremendously excited about working with. From the very start there were other people who wanted in on the book — some rather aggressively — and Harvey said "no way." He had absolute confidence in Joseph Remnant's ability to do this, which was interesting, because Harvey could have chosen artists who live now or have lived in Cleveland. We think that Joseph was able to get into Harvey's world, the way Harvey saw the city, which was a lot more important than just living there. Actually, in a way, it is probably an advantage he did this long distance, because he paid more attention to Harvey. This is a book about Harvey's history with Cleveland, so to speak; his relationship with Cleveland. I find myself telling people that it is kind of a love letter to a thing that meant so much to Harvey. But this is not putting a shine on the city, yet it is certainly not "let's trash the hometown." You got to look at Harvey's relationship history… I'm his third wife. The book is also about that we had better talk about where were going in this relationship thing too.

It's very clearly how he sees his life in the city, and it finally answers the question once and for all why a writer of Harvey's caliber would choose to stay in a city like Cleveland. When we got married, I left a really sweet deal. I had a job that was created for me at my request by the governor of the state, doing exactly what I wanted. I had friends with a small theater/studio... you know, good people. Lovely. I offered Harvey the chance to *A) pick everything up and I'd support him and he can just write full time* or *B) there's the V.A. hospital down the street*. He could not let go of it. It was not a lack of adventure. It was not any type of cowardice. This was just the *place*; he could not separate it from his identity. So he sort of sold me on the city, showed me a lot of things I was looking for and, of course, I was in love with him. So I came out here. I came to Cleveland and there you go.

P: Both Harvey Pekar's comics and your own focus on real people and real world situations. Whether exploring the mundane details of daily life or describing political topics, what is the importance of showcasing "the real" in comics? Why use comics specifically to do this?

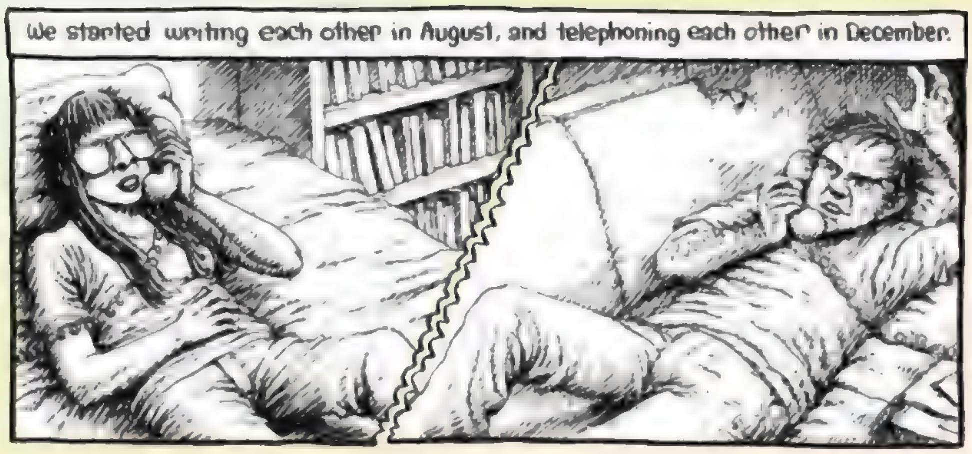
JB: Well, since I have done so many public appearances with Harvey, and I am probably the expert on what Harvey thought or meant or whatever, I'll answer this. I have heard him asked this question, and part of my responsibility is to make sure his voice, even though he is not here right now, is amplified. He would say he could never really imagine not writing about himself. It's not that he was an egotist, it is just that he did not have an imagination that ran that way. Sometimes he would joke that he had so much trouble understanding other people. That made people think was he just so anti-social he could not relate. That's not true, because so many of his books were stories that he wrote, where he was retelling someone else's story. He wrote about the real stuff, and this is what we had in common since the moment we met. I am someone who has kept a diary since I was a kid, and I taught diary writing. I taught diary writing to guys at maximum security prisons that would only get out for a half hour from their single cells to be with the other population to eat.



> "He could not let go of it. It was not a lack of adventure. It was not any type of cowardice. This was just the ***place***; he could not separate it from his identity."

What I found, is that a life observed, where you have to answer to a blank piece of paper with a pencil, makes you look for what is worth writing about. In fact, I tell my guys at the joint — it was played for comic effect in the *American Splendor* movie — but I tell my guys in the joint, *"I want you to write something to fill up these notebooks, and if your life is not worth writing about, then they have already gotten to you, they won."*

This diary tradition of literature goes back to the "Court Ladies" of Heian period of Japan. These were women who wrote diaries, who were not allowed to go outside their room or the building. Like Anne Frank, they'd write about a leaf changing color or a tree outside their window. It would have so much more meaning because of the slowing down and observing. I think Harvey found that watching for stories, listening for stories, made him feel much more alive, and I think it comes through in the writing. Did Harvey like Fantasy or Super Heroes or stuff like that? Certainly as a kid, God knows, yes. Even as an adult, in limited quantities, for him those were occasional flavoring; he could not do a steady diet of it. It was not as though they were junk food it just wasn't his dietary preference.



We started writing each other in August, and telephoning each other in December.

P: Cleveland is part autobiography and part history. How does the wider context of the history of Cleveland inform the autobiographical parts?

JB: Read the book and see if he pulled it off.

P: This book should further illuminate the deep connection between Harvey Pekar and the city of Cleveland. You have also been involved in efforts to erect a memorial statue in Cleveland for Harvey. What can you tell us about that? And is there anything our readers can do to help with the project?

JB: They can go to Kickstarter and search for "Harvey Pekar." Or they can contact me directly at harvey.pekar.estate@ gmail.com. The campaign ends December 5th, soon after publication of this interview. One of the most important places to Harvey, and to me, is our Cleveland Public Library System, which is just amazing. I don't know what the numbers are, but we're in the top 4 or 5 Library systems across the country. We were both people who grew up saved because of libraries.

I suppose you could say that the memorial would enhance Harvey's reputation. I don't care about that… he doesn't need to be reassured that he is important anymore. I think this is a chance to show people, for people to vote with their small donations to show other people, that comics are art and litera-

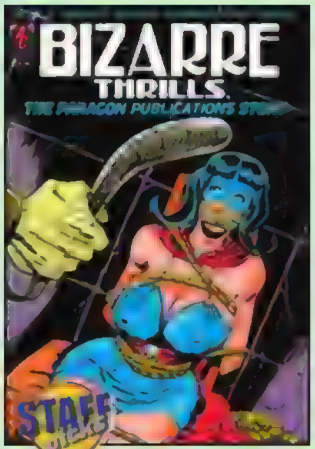
SPOTLIGHT ON



BIZZARE THRILLS: THE PARAGON PUBLICATIONS STORY TP

A compendium of Bill Black's legendary Paragon Publications line of comics "prozines" of the 1970's! Black wanted to create a line of comic-book based periodicals that incorporated the idea of design and featuring his own original characters in ongoing, interconnected stories; a universe, if you will, of superheroes and adventurers. From roughly 1970-1980, Paragon did that, fueled not only by Black's tasteful sense of visuals, but also a healthy dose of the one aspect fairly rare in the "mainstream" newstand comics of the day — strong female characters. See what the AC Comics empire was built on, with never-before-reprinted stories starring Synn, Tara, Paragon, Scarlet Scorpion, The Shade, and more! (STK458153)

ORCHID #4

Dark Horse Comics

Harvard graduate turned rock star turned activist turned comic book writer? As a member of Rage Against the Machine, Tom Morello proved to be one of the most innovative guitarists of the last 30 years. By approaching the instrument in so many new ways and combining a bevy of effects, Morello created a unique sound that marked a paradigm shift in rock music. The prospect of having the virtuoso's creative energies directed towards a project with Dark Horse is something that should be enticing to music and comic fans alike.

Orchid, set in a dystopian future where the earth has been devasted by both economic and natural disasters, tells the story of an unlikely heroine who finds herself swept up in a revolutionary movement. Much like the classic folk hero archetypes, Orchid is a seemingly normal person who's called upon to do extraordinary things. While the first issue paints a bleak picture of her world in its current state. Morello sows the seeds of hope in the form of a mysterious mask worn by a mythic revolutionary figure. Each subsequent issue of *Orchid* promises to deliver more information about this mask and its role in helping Orchid spearhead a new revolution. This is a new series from Dark Horse that should be on everyone's pull list.

NIGHT OF THE LIVING DEAD VOLUME 3: The most terrifying night in American history was only the beginning! The year is 1969, and though the risen dead had ravaged the eastern seaboard a year earlier, two thousand miles of distance bring comfort to a handful of young and carefree "weekend warriors." Eager to leave their tensions behind, they head out into the Californian dunes for three days of hot sun, dune buggies, and skimpy bikinis. But the pristine white sands will soon run red, as a secret even more gut-wrenching than flesh-eating ghouls comes to light! Collecting the entire "Death Valley" story arc by horror comic legend Mike Wolfer, with an added bonus story set in the Louisiana bayou, where the psychological threat of the coming undead hordes pits survivor against survivor! Available in Softcover and Hardcover editions with covers by horror veteran Mike Wolfer.

Detective Kazuha has landed a murder case that brings him back into contact with a man who once attended junior high with him. Back then, their relationship was like oil and water, and it certainly seems to be the case now as well: while Kazuha is a police detective, Hyoudou is a member of one of the notorious yakuza groups. Hyoudou claims to be willing to bargain for some very important information pertaining to Kazuha's case. His price is unacceptable, however. Demanding Kazuha himself as payment, the refusal given seems to not be an option he will accept. Now, not only after a cold blooded killer, Kazuha finds he is being stalked by his very own beast of a different sort...Will he catch the killer and come out with his own heart, body and soul intact?

As a step-parent, I'm finding myself more conscious of the reading material I bring into my house than I was previously. My bookshelf is now positioned where anything questionable is out of the kid's reach and they have their own shelf with kids-friendly material. However, as some of my previous staff picks have shown, I love things with cute, fluffy cartoon characters because:

1) It's safe for my kids to read, and
2) I just love them.

JINCHALO GN

(W/A/CA) Matthew Forsythe

Jinchalo is Korean for "Really?" and that question is at the heart of this book. A companion to Ojingogo, Jinchalo stars the same little girl as its heroine. When the mischevious shapeshifter Jinchalo hatches from a mysterious egg, he starts our heroine adventuring anew. Magical troubles drag the pair out of the safety of her home. These comics are firmly rooted in Korean folktakes and stylistic conventions, with a playful, joyous line to create a Miyazaki-tinged dreamscape where spotted octopi fly and bears give piggyback rides. The otherworldly pantomime about a girl, her squid, and the creatures and calamities they experience together, is an intrinsically expressive and deeply rewarding journey. Drawing from Forsythe's Korean influences, *Ojingogo* is accessible for all ages, tossing aside traditional narrative in favor of creating its own world. (STK402402)

Kevin Huizenga exposes the mechanics that underpin everyday life. His protagonist, Glenn Ganges, has conversations about dish soap and library visits that are both faithful depictions of the mundane interactions we all have and so much more: existential dissections of the units that construct our lives. Huizenga has an understated, quiet approach to story writing that allows his characters (and his readers) the self-awareness to recognize the humor and tragedy of every moment. FOLLY: THE CONSEQUENCES OF INDISCRETION

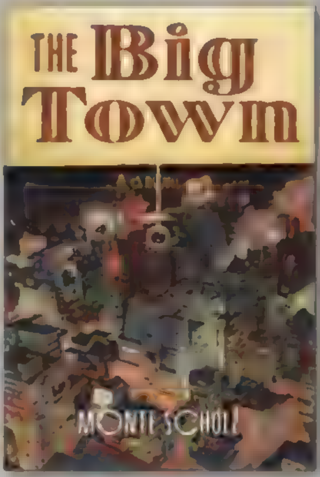
by Hans Rickheit

$18.99 / SC / 144 pgs / PC / 8 x 10

Lovers of art comics will know Hans Rickheit (*The Squirrel Machine*) as one of the most inscrutable and discomforting cartoonists working today, but Rickheit has been producing his own self-published comics for over a decade. Originally distributed as Xeroxed pamphlets, these "underground comix" have now been compiled into a compact, lushly illustrated bedside reader filled with strange and beautiful images culled from the deepest reaches of the back-mind. Readers of *The Squirrel Machine* will not be disappointed.

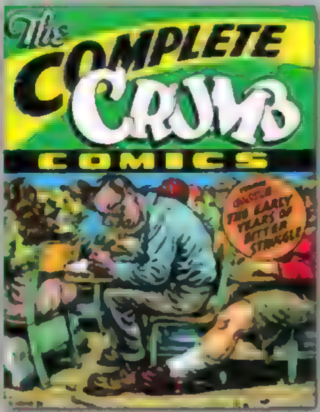


THE BIG TOWN

by Monte Schulz

$29.99 / HC / 444 pgs / BW / 6 x 9/ Prose

From the award-winning author of *The Last Rose Of Summer* and *This Side Of Jordan* comes a new prose novel framed within a city where gangsters murder ordinary citizens and everyone seems to have a get-rich scheme. Set as the Roaring '20s come to a thunderous close, *The Big Town* evokes a lost era through language and flamboyant characters reminiscent of Fitzgerald, Dos Passos and Ring Lardner, and yet it also eerily mirrors our own time with its study of the role of business, crime, morality, and love in our lives



THE COMPLETE CRUMB VOL 1: The Early years Of Bitter Struggle (new expanded edition)

by R. Crumb (with Charles Crumb); Introduction by Marty Pahls

$24.99 / SC / 192 pgs / PC / 8.5 x 11

This long-unavailable first volume of the multiple award-winning *Complete Crumb Comics* series, one of our most demanded reprints, has now been expanded to include a never-before-published, 48-page "home-made" *Arcade* comic from 1962. This previously undiscovered work shows many flashes of the direction in which Crumb was heading and features the first quintessential "Crumb girl," Mabel. This is Ground Zero for perhaps the greatest cartoonist who ever lived.

COMPLETE PEANUTS 1983-1984

Great Picks in Graphic Lit!

by Charles M. Schulz; introduction by Leonard Maltin

$28.99 / HC / 344 pgs / BW 8.5 x 7

As *Peanuts* reaches the mid-1980s, Charles Schulz is still creating new characters, and in this volume Snoopy's brother Spike takes center stage. In romantic news, the Peppermint Patty-Marcie-Charlie Brown love triangle heats up while Linus continues to deny that he is Sally's "Sweet Babboo." Lucy's pursuit of Schroeder continues and romance blossoms between two of Snoopy's "Beagle Scout" birds. All this plus appearances from the cover-featured Franklin, Rerun, and the rest of the gang from a period of *Peanuts* that's far less well-known than the 1960s and 1970s strips.

STRIPPERELLA GN

Deepcut Productions

Stripperella, is coming out of retirement for a one-night-only engagement that's sure to "arouse" any reader's attention. It's been a while since we last saw her gracing the small screen, but everyone's favorite exotic dancer, once again, readies herself to fight crime when she's not doing her 8-to-2 shift at club.

Stan Lee's unique, off-beat, and often "revealing" creation is once again pulling double-duty between the erotic club that made her famous and the secret agency that made her a hero. A new villain is in town and the whole city is in his path of destruction. Time is short, and Stripperella's skirt, even shorter, as she gears up and "bends over backward" to keep the city safe for dancers and club patrons alike.

Written by Stan "The Man" himself and illustrated by Anthony Winn, *Stripperella* is back in "full form" and with every crime-fighting "asset" faithfully rendered just like we remember. Get your fifteen "one's" ready!

BIZARRE THRILLS
THE PARAGON PUBLICATIONS STORY

BIZARRE THRILLS: THE PARAGON PUBLICATIONS STORY TP

AC Comics

I've always enjoyed reading about the history comics, including comic fandom and its fanzines. As offset printing became affordable, what were fanzines became prozines, and Bill Black's Paragon Publications provided fans with 'zines featuring top production values along with entertaining content.

In *Bizarre Thrills: The Paragon Publications Story*, readers get a chance to flash back to the 1970s and read about the early days of comics, fandom and what would lay the groundwork for AC Comics. Featuring stories by writer and artist Bill Black, you'll read his take on heroes, many of them strong female characters such as Tara, Synn, and Nightveil who visually owed much to Bill's fascination with the good girl art of the 40's. With stories ranging from superhero to horror and western readers weren't limited to what was available on the newsstand.

Finding the old fanzines and prozines of this time period, pre-Direct Market, is difficult; those who collected them are reluctant to part with their copies. This compilation is your best chance to read stories featuring the start of many professional careers from Jerry Ordway, Tom Lyle, Joe Staton, John Beatty, and Marc Hempel.

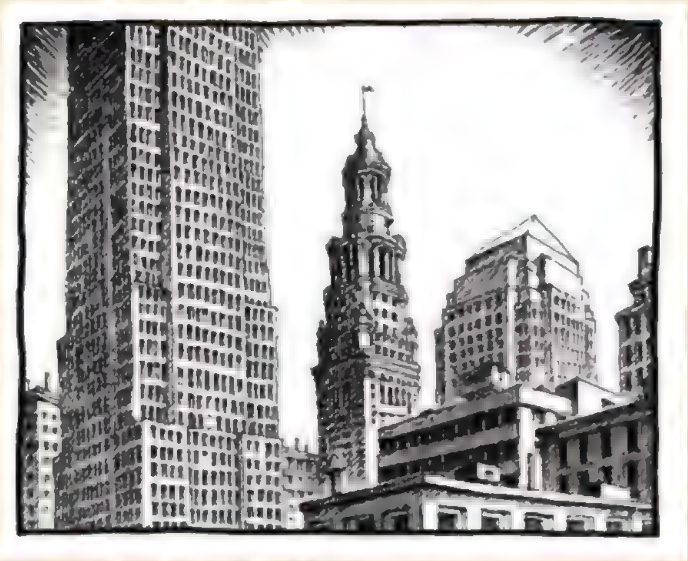
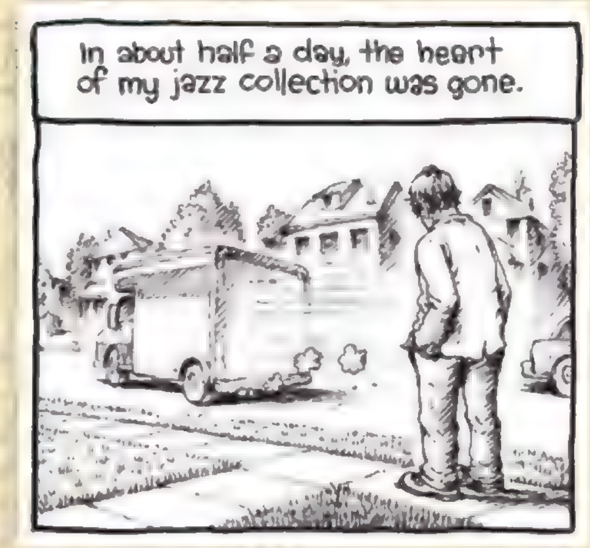
HARVEY PEKAR'S
CLEVELAND

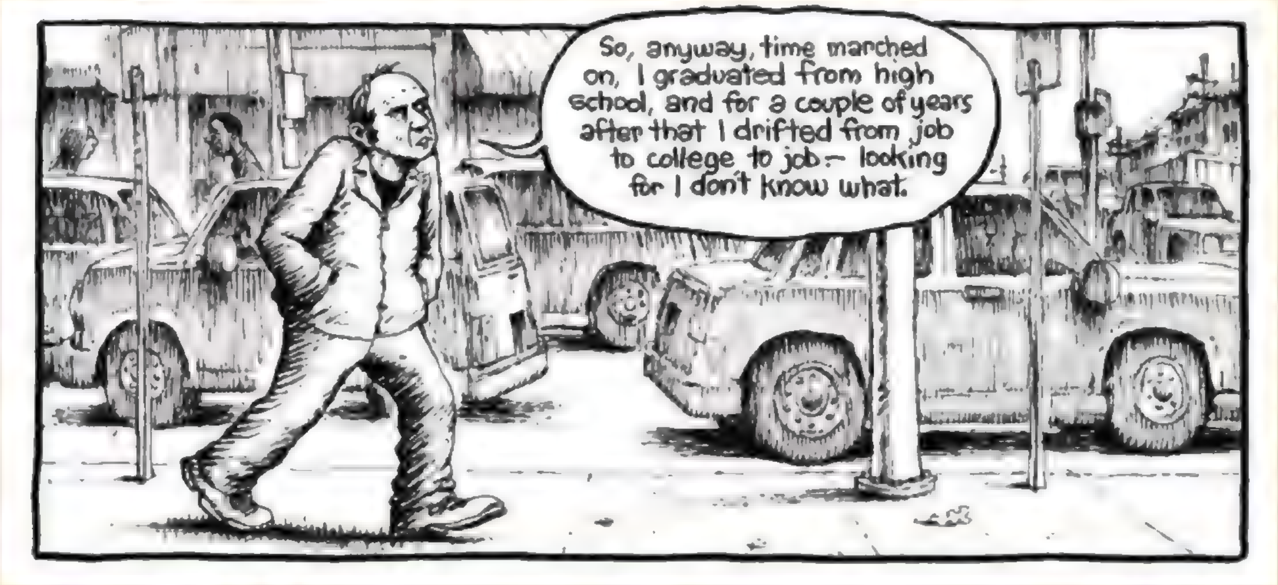
WRITTEN BY
HARVEY PEKAR

ILLUSTRATED BY
JOSEPH REMNANT





In about half a day, the heart of my jazz collection was gone.

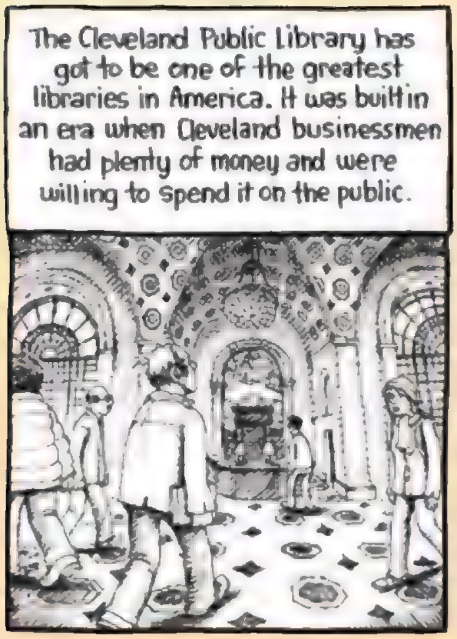


So, anyway, time marched on, I graduated from high school, and for a couple of years after that I drifted from job to college to job— looking for I don't know what.

FOR HARVEY, COMICS, AND CLEVELAND

THE JOYCE BRABNER INTERVIEW

Continued from page 223



The Cleveland Public Library has got to be one of the greatest libraries in America. It was built in an era when Cleveland businessmen had plenty of money and were willing to spend it on the public.

ture, and that is why it is called the "Harvey Pekar Comix as Art and Literature Memorial Statue/Library Desk." Rather then put it on a giant granite block that would have doubled the cost of the project, we are making this into an actual desk where people can sit. There are things in the drawer that Harvey used to write with. Comics are words and pictures and you can do any anything with words and pictures. I saw a statue of the Michelin Man. We have statues of Greek Gods at the post office. I don't think there are very many comix-related statues in the world, and if there are, I wouldn't be surprised if most of those are tied into cartoons like Mickey Mouse and Disney stuff — I am talking about comics as art and literature. Not comics as *I-can-wrap-a-fish-in-it-after-I-read-it* entertainment. It's kind of embarrassing to use lofty phrases like "elevate the art form..." If this flies, why not do a statue in the library or hometown of somebody else. In Ohio, there is the Thurber House, and a lot of illustrators or cartoon people came from around here, but I am not about to turn my house into the "Pekar House." They spelled Siegel's name wrong on the plaque for the Siegel and Shuster house, which thrilled everyone after it got stolen as they could replace with one properly spelled.

If this doesn't work with Harvey attached to it, maybe someday someone will have enough juice to make one about comics. But if the project is overfunded by the time this hits print — sometimes people get enthusiastic on Kickstarter — and once all the expenses are covered, we have made arrangements to use the funds to put more comics in the library. The idea is to create a library that is a magnet for comic book readers, not scholars. Not the guys who go with white gloves to a facility and unfold with reverence some *Little Nemo* page or watches as it is unfolded in front of them. I mean, come in, stick your nose in a comic and read it. Sit at the desk which we will always keep supplied with pencils and paper. Draw your own words and pictures or draw on the statue because the back of it is going to be slate, arranged like the kind of storyboards Harvey drew. So if you want to still get involved we got a good use for the money.

P: How have independent comics changed since you first became involved with them? How did the process of publishing Cleveland differ from earlier efforts?

JB: Well the first thing that I think has happened is they are getting physically smaller. Okay, remember now in Harvey's case, because he was working with wet printing, he was working with a thing the size of an unfolded newspaper. These original newsprint *American Splendors* are prizes to Kickstarter donors in certain reward categories. Harvey was real impressed when he saw his first mini comic, by Matt Feazell, and he loved that. Probably because the book looked like something Harvey did with stick figures. So he recognized a kindred spirit. There has been a lot of experimentation in form and content, which probably has to do with the rise of 'zines.

P: How did the process of publishing Cleveland differ from earlier efforts?

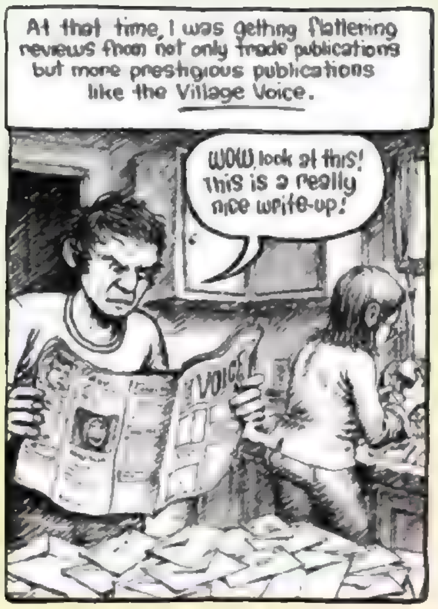
JB: Well, the big difference was Harvey got paid an advance against royalties. He got paid. Something kind of tangential and related to this is something I said on the Kickstarter page. When you're 25, it might be selling out, but when you're our age, it is called getting paid for what you do.

P: Do you think comics have earned the right to be called "graphic literature"?

JB: I suppose if graphic means they have pictures, we're probably safe with that. Literature… I have never found a suitable definition for literature. If its crap, they can still call it genre literature. [Laughs]

Comics earned the right to be respected and looked at and enjoyed, what can I say. I fell in love with a guy whose life I met through comics. So for me, it is like a no-brainer; I married into it. I changed all my plans; I gave up my government job because I believed in Harvey and because I believed in the medium. Because I like chances, a little bell went off in the back of my head and said *"go, jump, do it."*

Continued on the next page



At that time, I was getting flattering reviews from not only trade publications but more prestigious publications like the Village Voice.
WOW, look at this! This is a really nice write-up!

But I was losing money on the comic book, and nobody, aside from comics fans and insiders, knew about me.
Everybody's into SUPERHEROES!

FOR HARVEY, COMICS, AND CLEVELAND

THE JOYCE BRABNER INTERVIEW

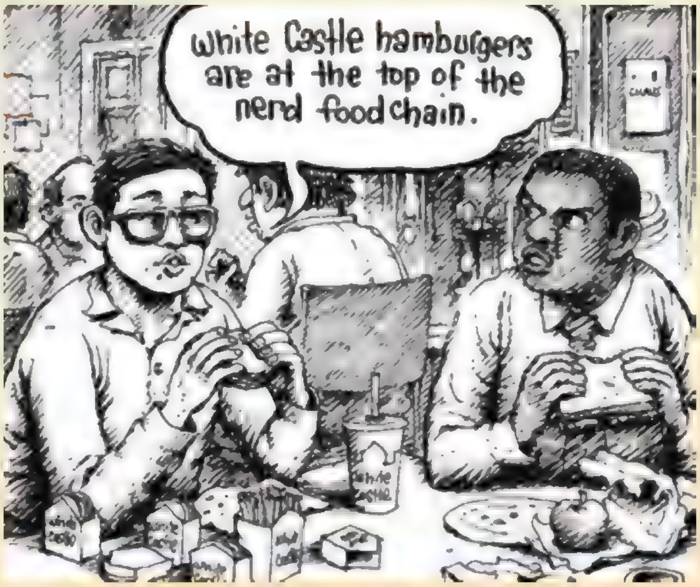
Continued from page 317

P: What are some of your favorite "graphic lit" titles?

JB: Now what do I like to read? I like to read anything somebody's put their heart into, because I am one of these people who would rather have a real simple... okay, I visited other countries and have friends who have not had much money, and I would rather have a real simple meal prepared by them, where they put their heart into it.... I mean we had exotic meals at Cannes and stuff like that. There is something about the noodles and the beans dish that somebody prepares for you. I guess I am thinking a lot about food because I was hanging out with Tony Bourdain last night. He is a doll.

Anyway, one of the places I love to get books from is Microcosm Publishing. They publish personal 'zines, little tiny things that anybody can do. The kind of stuff you would find at SPX, which is why I love SPX. You'll find a comic book about what it is like to be a black ghetto girl lesbian who loves heavy metal music and you can't figure out what kind of shoes you're supposed to wear… something like that. I will find that every bit as fascinating and unique as somebody's story about a so-called larger thing. That said, I do love people who can pull off the writing and observation and illustration. So obviously that means I like Allison Bechdel. I have always loved *Dykes to Watch Out For*, and *Fun Home* is terrific. Something that nobody knows about me, is that I was reading before I was three, and when your little your eye muscles don't really work that well, being able to follow small print on a page without illustrations, you know it hurts your head to look at a normal text book. I made the jump from *Cat in the Hat* to *Nancy Drew* books because when I was 5 or 6, somebody gave me some *Nancy Drew* books and I was very disappointed because they only had one picture and tiny words, and I thought they were grown-up books. I had a cousin with a comic collection, and I realized the words were the same size as the *Nancy Drew* book. So I went back and I tackled my first *Nancy Drew* book, and realized I could read. So, comics really encouraged me to read more serious literature. I like those dumb old DC comics with Jimmy Olsen as Porcupine Boy or Matter Eater Lad from the *Legion of Super-Heroes*. Linda Lee's robots hiding in trees… anything drawn by Curt Swan or Wayne Boring. It is a nostalgic thing, but it is something that I find pretty comforting because it makes me think about lying under the rug with my cousin, hiding. We both agreed we would grow up and live together as hermits.

I just think those comics should be printed in black-and-white or priced to the point where kids can read them. Early on, when I was doing the whole *Brought to Light* promotion tour, I met Fred Hembeck, and I said "Look, you've got to draw me a picture of Lois Lane stalking Superman," because that was total womanhood to me when I was six. I really loved any of the illustrations in the *Oz* books. But the reason I gave up comics was that I was reading them so fast I would go through like six a day and I was chewing through books the way we did when we were kids, and then have a massive headache. For 20 cents I could actually get the bus to the public library so I would not exhaust myself carrying things back. I would have to read the spinner rack at the Grocery store and get chased out of there for that!



White Castle hamburgers are at the top of the nerd food chain.

More Online @ PREVIEWSworld.com Joyce discusses how she's "paying it forward" in working with new writers and artists. "I want to keep people in my hometown making comics and working with people who get comics."

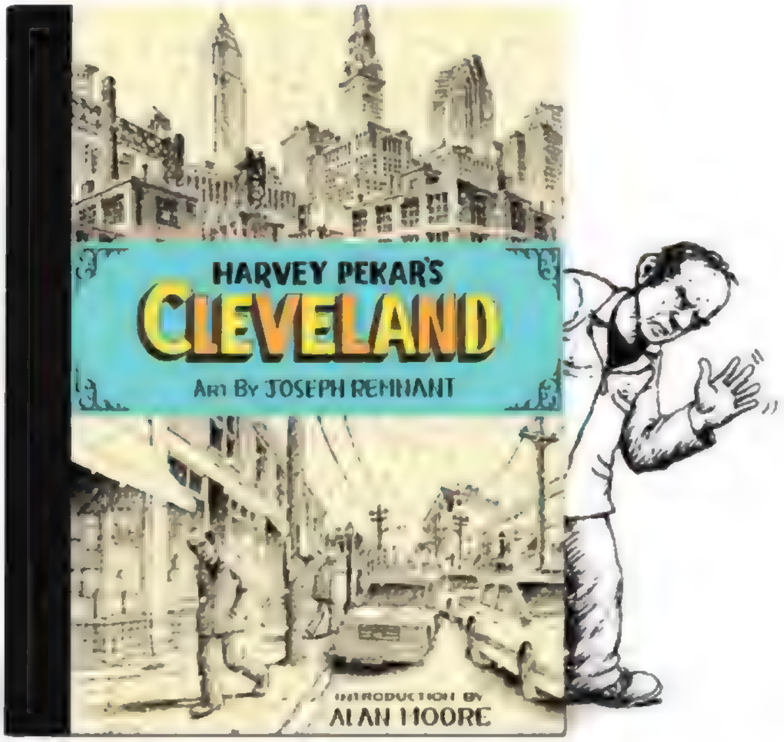
"One of the very greatest works by that unique and irreplaceable American voice, the truly splendorous Harvey Pekar...graced by the impeccable and poignant artistry of Joseph Remnant."
–From the Introduction by Alan Moore



A lifelong Cleveland resident, Harvey Pekar (1939-2010) pioneered autobiographical comics, mining the mundane for magic since 1976 in his ongoing *American Splendor* series. *Harvey Pekar's CLEVELAND* is sadly one of his last, but happily one of his most definitive graphic novels. It combines classic *American Splendor*-ous autobiographical anecdotes with key moments and characters in the city's history as relayed to us by Our Man and meticulously researched and rendered by artist Joseph Remnant.

Zack McKinley was just another twentysomething pizza delivery boy before he discovered that his pop culture idols are actually the advance team of an alien invasion. Now, encouraged and aided by his (probably insane) uncle, Zack must track them down, one by one, and kill them before the invasion can begin. But the advance team has no intention of letting Zack get in their way, and soon the authorities are hunting for a celebrity serial killer in a pizza delivery jacket! (STK457481) (C: 0-1-2)

The Navidad Incident

The following day, the tour bus, and its passengers, simply vanish. The locals exchanges absurd rumors—the bus was last seen attending Catholic mass, the bus must have skipped across the lagoon—but the president suspects a covert guerrilla organization is trying to undermine his connections with Japan. OUTCAST #3

BOOM! Studios

Within a handful of pages: regicide, necromancy, reanimation, and a beautiful lady shaman restoring thought to the undead by tattooing the corpse. Now that ex-King Valen's undead body is warded with mystical body modification, he's going to bring down the wrath of the damned on the necromancer Korrus Null. No one knows rage like the dead, and this ghost is equipped with fists like sledgehammers.

Yes, the main character expires before we hit *Outcast*'s central two-page spread. Even still, ex-King Valen is everything you're looking for in a battle-hardened feudal warlord. He's got it all: brutish good looks (well, before he was slaughtered); a loyal, close-knit elite guard of brother warriors fiercely devoted to his rule (also a pre-death feature, actually); sprawling tracts of land (which are currently being redistributed, but they had been lovely); and the mightiest mass of muscle to bash a broadsword broadside a nefarious necromancer!

Valen's fall from grace is swift and definitive. His struggle to recapture his soul and his need to right the growing list of wrongs committed against his friends and his kingdom are evidence in and of themselves of Valen's inner fortitude. Yet the power that animates him is unnatural and twisted. As corrupted as his body has become, surely corruption of mortal morals and emotions cannot be far behind.

I have been blown away by the art on *Outcast*, and thoroughly hooked by the craftsmanship behind the story. This new riff on the barbarian king genre echoes just enough of Robert E. Howard to intrigue the reader, but leads the audience to fresh adventures in high-fantasy. I cannot over-recommend this series to the sword and sorcery crowd.

THE SARAH JANE ADVENTURES: CHILDREN OF STEEL AUDIO CD

(W) Martin Day

Clyde can't believe he's let himself be dragged along to a boring old auction of antiques, but one particular lot has caught Sarah Jane's attention. It's listed as an anatomical sculpture of a human face, in brass, but to Sarah's eyes it looks more like the head of a robot — from a time before the word "robot" was even coined. Sarah Jane is convinced it's part of the famed "Difference Golem," a steam-powered "autonomous man" from the Victorian era! BOOM! TOWN

R CRUMB PIONEERS COUNTRY MUSIC TRADING CARD SET

(W) Richard Nevins (A/CA) R. Crumb

Forty legendary and obscure country music pioneers painted by R. Crumb with biographies by music historian Richard Nevins. Featured are such well known acts as Jimmie Rodgers and The Carter Family, along with long neglected groups whose sprightly names alone evoke foot-stomping and tub-thumping: Gid Tanner & the Skillet Lickers, The Happy Hayseeds, Ernest Stoneman & his Blue Ridge Corn Shuckers, and Al Hopkins and his Buckle Busters. This is the third in Crumb's famous trilogy of musical card sets, accompanying Heroes of the Blues and Early Jazz Greats (also available via BOOM!/Diamond). Printed on a heavy stock and packaged in a nifty full-color box, also designed by Crumb. From Denis Kitchen Publishing. (STK458165)

SAN DIEGO COMIC CON INTERNATIONAL

LANDMARK PEOPLE & EVENTS: *Comic-Con International*

Graphitti Designs owes it's very existence to what was originally called the San Diego Comic-Con. My brother and I attended in 1980 (our first comic-convention ever), to sell our comic collection from our youth. It was such a cool event that I approached the Con organizers before the 1981 Con and asked if I could produce and sell an event shirt for them. The then-unique concept of comic-related shirts created for the fans was met with great success. Graphitti Designs was created the following year. To compliment the official 1982 Comic-Con shirt, we also unveiled our new Will Eisner SPIRIT and Dave Stevens ROCKETEER shirts. Thank you Comic-Con International for letting me get my foot in the door.

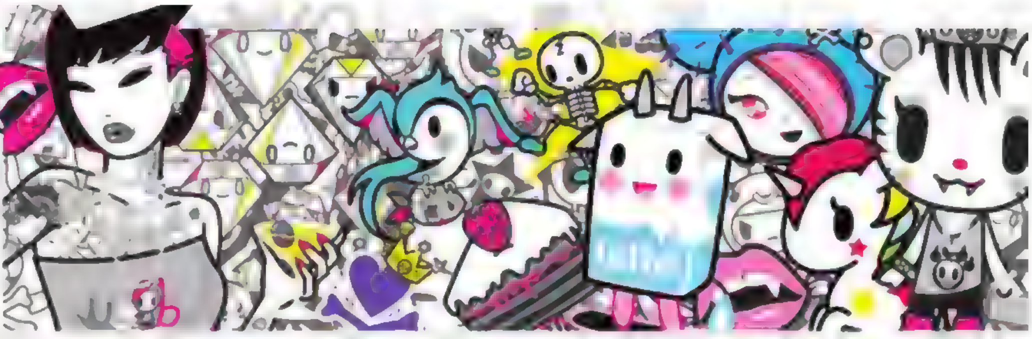
tokidoki



TOKIDOKI means "sometimes" in Japanese. I chose a Japanese word because I love Japan. I love everything from the ultra modern happy face of Shibuya to the serious magic silence of Kyoto. I chose "sometimes", because everyone waits for moments that change one's destiny. By simple chance or meeting a new person, tokidoki is the hope, the hidden energy everyone has inside that gives us the strength to face a new day and dream something positive, that something magical will happen to us.
Hello, my name is Simone Legno.

SHAWNIMALS WEE NINJA PLUSHES

(A) Shawnimals

Watching cartoons, drawing pictures, and playing video games as a kid, Shawn Smith began developing Shawnimals before he realized what he was creating. After working on EGM, he wondered what to do with his countless childhood sketchbooks, Shawnimals was born, and Ninjatown is part of it! Ninjatown is built on kindness, honor, and lightning-fast Stealth Hugs — not to mention Ninja-Star shaped cookies. The Wee Ninja Plush is a super-cuddly master of the Stealth Hug. TOKIDOKI: PORCINO VINYL FIGURE

(A) Simone Legno

The cactus is a sign of protection. Kids are naïve and vulnerable and need protection. A monster into a cactus suit would not have made much sense in my vision of things. Sandy and her friends zip themselves into cactus suits because they think the world is a cold and scary place, and they need som armore to face it. The cactus is the conserver of water, and water means life. The Cactus Friends for me are the representation of life, of being fragile and strong at the same time — and pure like water. Created by Italian designer Simone Legno, *Porcino* is one of his popular tokidoki characters. (STK456876) Scheduled to ship in February 2012. IRON MAN "CLASSIC SILVER" MINI-BUST

A Gentle Giant Release! Before the Red and Gold, there was Silver. In 1963, billionaire industrialist Tony Stark was critically wounded by a booby trap and captured by the Viet Cong during a trip to Vietnam. Faced with the choice of either constructing weapons for the Viet Cong or execution, Stark and Yinsen secretly concocted a plan to escape. Together, they took the munitions they were given and forged a suit of weaponized armor. STAR TREK: U.S.S. ENTERPRISE REFIT ARTISAN REPLICAS

She's arguably the most famous space exploration vessel ever: the iconic Constitution class starship, the *U.S.S. Enterprise* NCC 1701. Launched in 2245, she underwent a refit in 2270, and today it can be yours as a breathtaking Artisan Replica from Quantum Mechanix. Their most ambitious work to date, this 1:350-scale filming-quality miniature recreates perfectly the starship featured in the first three *Star Trek* motion pictures. Also available is the NCC-1701-A variant, which appeared in the *Star Trek IV, V,* and *VI*. The *Enterprise Refit* measures 34 1/2" long and 7" high (14" high when mounted on the base). And it includes more features, more visual effects, more detailed painting than any licensed ship replica from any major sci-fi movie or TV show to date. Semi-transparent pearlescent paint is applied by hand in overlapping layers using multiple masks to create an Aztec pattern on the hull. Custom built electronics in the *Enterprise Refit* control a complex lighting system that sports a total of 130 LEDs. Also available is *The Wrath of Khan Battle Damage variant*, which adds both a lighting package and modifications to the model to simulate the damage inflicted on the *Enterprise* during her battle with the *U.S.S. Reliant* in *Star Trek II: The Wrath of Khan*. Although every Artisan replica made is, in a real sense, an edition of one, QMx understands an edition number is very important to collectors, so they have set the edition size for *U.S.S. Enterprise Refit* at 250 ships total. (STK457595) Scheduled to ship in May 2012. (7814) (C: 1-1-4) **NOTE:** Available only within the United States and U.S. Territories.

DISNEY TRADITIONS PERSONALITY POSE FIGURES

Featuring a similar look to his popular Disney Traditions line that combines Disney's classic characters with the stylings of Americana artwork, Jim Shore's Disney Traditions: Personality Pose figurines capture the Disney characters in a smaller size. Just in time for Valentine's Day, four of Disney's beloved characters are ready for hugs and kisses. Mickey Mouse (4 3/4" tall) carries a heart as "A Gift of Love" for his true love Minnie Mouse (4 1/4" tall), who likewise holds a heart for "My Love." Meanwhile, the beloved pixie Tinker Bell (6" tall) wants to play Cupid with her bow and arrow. Each figurine is made of stone resin and crafted to Shore's impeccable standards. (STK457602) (587) (C: 1-1-3)

DISNEY TRADITIONS VALENTINE'S DAY FIGURES

Jim Shore's Disney Traditions figurines combine the wonder of Disney's characters with the folk art styles of classic Americana to create something new and magical. The Disney characters celebrate the love inherent in Valentine's Day with three new figurines. Mickey Mouse (8" tall) carries a heart balloon, saying to his true love, "You Keep Me Grounded." Together, he and Minnie Mouse decorate a keepsake heart box (2 3/4" x 4" x 5 3/4") that is a "Love Keeper." Even the gloomy Eeyore (6 1/2" tall) will know that "You Are Loved" in the Hundred Acre Wood. Each figurine is made of stone resin. (STK457837) (587) (C: 1-1-3) **NOTE:** Not available in Germany.

MICKEY MOUSE (4026087)—Figurine	$37.50

DISNEY TRADITIONS PERSONALITY POSE FIGURINES

Jim Shore's Disney Traditions figurines meld the worlds of American folk art and American pop culture by recasting favorite Disney characters in the style of classic Americana. The Disney Traditions Personality Pose figurines take the beloved characters and recreate them at a smaller size. Two of Disney's most popular characters — Lucky from *101 Dalmatians* and Marie from *The Aristocats* — are given the Personality Pose treatment. The dalmatian Lucky (4 3/4" tall) holds a heart in his mouth because he is "Lucky in Love," while the feline Marie (4 1/2" tall) sits on a heart-shaped bed because she is "Purr-fection" itself. Each figurine is made of stone resin. (STK457600) (587) (C: 1-1-3)

DISNEY TRADITIONS: CARS FIGURES

Combining Disney's world-recognized characters with traditional American art styles, master artisan Jim Shore presents a new vision of the classic characters for his Disney Traditions figure. The characters of the popular Disney/Pixar movie *Cars* are the latest to receive Shore's unique stylings. *Lightning McQueen* (3" tall) is off for the races in "Ka-Chow," his friend *Mater* (4 1/2" tall) wants to "Git-R-Done," and the wild *Tractor* (6" tall) roams the open range in "Mooooo." ORCHID #4

DARK HORSE COMICS

Harvard graduate turned rock star turned activist turned comic book writer? As a member of Rage Against the Machine, Tom Morello proved to be one of the most innovative guitarists of the last 30 years. By approaching the instrument in so many new ways and combining a bevy of effects, Morello created a unique sound that marked a paradigm shift in rock music. The prospect of having the virtuoso's creative energies directed towards a project with Dark Horse is something that should be enticing to music and comic fans alike.

Orchid, set in a dystopian future where the earth has been devasted by both economic and natural disasters, tells the story of an unlikely heroine who finds herself swept up in a revolutionary movement. Much like the classic folk hero archetypes, Orchid is a seemingly normal person who's called upon to do extraordinary things. While the first issue paints a bleak picture of her world in its current state. Morello sows the seeds of hope in the form of a mysterious mask worn by a mythic revolutionary figure. Each subsequent issue of *Orchid* promises to deliver more information about this mask and its role in helping Orchid spearhead a new revolution. This is a new series from Dark Horse that should be on everyone's pull list.

STRIPPERELLA GN

DEEPCUT PRODUCTIONS

Stripperella is coming out of retirement for a one-night-only engagement that's sure to "arouse" any reader's attention. It's been a while since we last saw her gracing the small screen, but everyone's favorite exotic dancer once again readies herself to fight crime when she's not doing her 8-to-2 shift at club.

Stan Lee's unique, off-beat, and ever "revealing" creation is once again pulling double-duty between the erotic club that made her famous and the secret agency that made her a hero. A new villain is in town and the whole city is in his path of destruction. Time is short, and Stripperella's skirt even shorter, as she gears up and "bends over backward" to keep the city safe for dancers and club patrons alike.

Written by Stan "The Man" himself and illustrated by Anthony Winn, *Stripperella* is back in "full form" and with every crime-fighting "asset" faithfully rendered just like we remember. Get your fifteen "one's" ready!

OUTCAST #3

BOOM! STUDIOS

Within a handful of pages: regicide, necromancy, reanimation, and a beautiful lady shaman restoring thought to the undead by tattooing the corpse. Now that ex-King Valen's undead body is warded with mystical body modification, he's going to bring down the wrath of the damned on the necromancer Korrus Null. No one knows rage like the dead, and this ghost is equipped with fists like sledgehammers.

Yes, the main character expires before we hit *Outcast*'s central two-page spread. Even still, ex-King Valen is everything you're looking for in a battle-hardened feudal warlord. He's got it all: brutish good looks (well, before he was slaughtered); a loyal, close-knit elite guard of brother warriors fiercely devoted to his rule (also a pre-death feature, actually); sprawling tracts of land (which are currently being redistributed, but they had been lovely); and the mightiest mass of muscle to bash a broadsword broadside a nefarious necromancer!

Valen's fall from grace is swift and definitive. His struggle to recapture his soul and his need to right the growing list of wrongs committed against his friends and his kingdom are evidence in and of themselves of Valen's inner fortitude. Yet the power that animates him is unnatural and twisted. As corrupted as his body has become, surely corruption of mortal morals and emotions cannot be far behind.

I have been blown away by the art on *Outcast*, and thoroughly hooked by the craftsmanship behind the story. This new riff on the barbarian king genre echoes just enough of Robert E. Howard to intrigue the reader, but leads the audience to fresh adventures in high-fantasy. I cannot over-recommend this series to the sword and sorcery crowd.

DC SUPER PETS: SUPER POWERED PONY

CAPSTONE PUBLISHING

As a step-parent, I'm finding myself more conscious of the reading material I bring into my house than I was previously. My bookshelf is now positioned where anything questionable is out of the kid's reach and they have their own shelf with kids-friendly material. However, as some of my previous staff picks have shown, I love things with cute, fluffy cartoon characters because 1) it's safe for my kids to read, and 2) I just love them.

Part of the DC Super Pets young readers line from Capstone Publishing, *Super Powered Pony* features Comet the Super-Horse!, an adorable white pony with a Superman logo on its chest. Super. Powered. Pony. If there was ever a reason for me to read a book, this is it.

BIZARRE THRILLS: THE PARAGON PUBLICATIONS STORY TP

AC COMICS

I've always enjoyed reading about the history of comics, including comic fandom and its fanzines. As offset printing became affordable, what were fanzines became prozines, and Bill Black's Paragon Publications provided fans with zines featuring top production values along with entertaining content.

In *Bizarre Thrills: The Paragon Publications Story*, readers get a chance to flash back to the 1970s and read about the early days of comics fandom and what would lay the groundwork for AC Comics. Featuring stories by writer and artist Bill Black, you'll read his take on heroes, many of them strong female characters such as Tara, Synn, and Nightveil who visually owed much to Bill's fascination with the good girl art of the 40's. With stories ranging from superhero to horror and western readers weren't limited to what was available on the newsstand.

Finding the old fanzines and prozines of this time period, pre-Direct Market, is difficult; those who collected them are reluctant to part with their copies. This compilation is your best chance to read stories featuring the start of many professional careers from Jerry Ordway, Tom Lyle, Joe Staton, John Beatty, and Mark [illegible].

Kevin Huizenga is not just creating good comics, he's weaving and finding his way through his own approach to the creative process.

Kevin Huizenga has produced a rich body of artistic work, including fiction and nonfiction, literary adaptations, self-published minicomics and ongoing comic strips. His work has appeared in the Best American Comics anthology, received an Ignatz award for "Outstanding Series" and appeared in numerous recommended and top-ten lists. His comics can be best described as accessible and experimental, thoughtful and playful, which make them an excellent choice for readers who want to explore something new. Both new readers and longtime fans of Huizenga's comics can look forward to Drawn & Quarterly's upcoming *Gloriana*, an expanded edition of earlier work featuring his best-known character Glenn Ganges. We spoke with Huizenga about *Gloriana*, his creative process and plans for future comics.

HUIZENGA: MAKING THE EVERYDAY ADVENTUROUS

Tell us about *Gloriana.* What does this book collect?

In 2001 I was still self-publishing my minicomics, and I wanted to make a fat, dense book and try out some more unusual ways of drawing comics. I guess you could call them "experimental," but I don't like everything that word suggests, like somehow being weird and difficult is scientific, or that reading the work is going to be a chore. But I was still stretching my legs. I set out to make some adventurous comics about everyday things - groceries, a sunset, the moon.

There are three interconnected stories. My character Glenn Ganges unpacks some groceries, watches the sunset and then talks to his neighbors about why the moon looks very large and red. And then there is another story about where I grew up and about playing basketball in high school. It was in the original mini comic, and even though it's unrelated, people told me they liked how it felt alongside the Glenn Ganges stories.

Would this book be accessible to someone unfamiliar with your other work?

Yes, definitely. It totally stands alone. My other book, **The Wild Kingdom**, contains some material that is older than **Gloriana**, but really this book is my first published work. Everything else came after.

After I gave the original minicomic to Chris Oliveros, publisher of Drawn and Quarterly, he asked if I'd be interested in doing some work with them, so this is kind of where it all started.

Your comics bring together many different ideas and influences. Do you process and explore these ideas through the act of creating comics, or have you already figured out what you want to say and the comic is more a means of communicating it?

I usually figure it out as I go. **Gloriana** was not planned out at first. When I drew the first few pages I had no idea where it was going. I was reading the comics of John Hankiewicz and Ben Jones at the time, among others, and their approaches to storytelling opened up some possibilities in my head, as well as the ideas of Chris Ware about comics and musical forms.

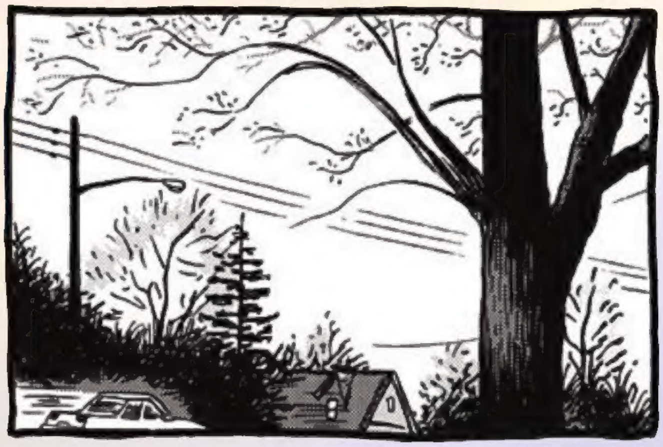
Another influence was classical choral music, where bits of phrases are repeated, and you get things like changes in tempo and volume and key changes. I wanted to try to do a comics version of those kinds of musical forms.

The moon section of the book, the part with all the diagrams, came from a day job drawing diagrams. I was thinking a lot about the relationship between diagrams and comics (also influenced by Ware). As I got working, one thing led to another, and I tried to put it all together more or less organically, while keeping the whole thing physically small enough to staple and also fit a foldout in the middle.

> *"**Gloriana** was not planned out at first. When I drew the first few pages I had no idea where it was going."*

Your work encompasses many different formats and styles, while remaining unique and recognizable. What do you do to keep the work fresh and creatively challenging, and what limitations do you impose on yourself to keep it manageable?

That's a tricky question, and I'll have to think about it for a minute.



About a minute has now passed. I don't think I've ever had a problem keeping the work fresh for me. I have a lot of ideas, and I want to try a lot of things. I'm okay with quantity over quality, because I think you get more quality that way. I just like the work, the problem solving, and the variety of possibilities. But to keep it manageable, you have to know that there's a point at which you have to trust your gut feelings and pick a pen and get to work. That's the limitation that allows you to not get bogged down with perfectionism or self-doubt, but it's risky because eventually you finish something and now it can be judged.

You've done a lot of self-published comics, and have helped showcase other great minicomics through the USS Catastrophe website. Can you talk a little bit about that? Where else can readers look to find out about unique new comics?

In my experience many interesting cartoonists are not very good at self-promotion or career decisions. But it's a lot easier now with the Internet to get the word out, to link to each other, both for readers and shy artists. I try to link to a lot of people in my blog links, but I'm fairly out of the loop these days. When I was younger, John Porcellino's Spit and a Half and Quimby's (a store in Chicago) were how I found out about good stuff. Both are now on the Internet, and there are many more places to look, such as Global Hobo or Profanity Hill.

Is there anything specific that you would like to do with a comic that you haven't been able to yet? Anything you would like to see someone else do?

I've been able to do a lot, such as hardcovers, color comics, Simpsons, Marvel, that I'd never have thought I'd have a chance to do. It's more important for me to do consistently interesting work than to try everything, like check off a career "To-Do" list. Mostly I'd like to do more of what I've already done, for instance I'd like to do more non-fiction comics. I don't think most non-fiction or educational comics are done right. I'd like to do more color comics. I'd like to make up more characters.

How do you feel comics and graphic novels stack up to great literature? Are we at the tip-ping point where comics can be considered on par, or do we have a ways to go?

I don't know if it's productive to make these kinds of comparisons. I can't even imagine how you would do the math, or how you would graph the equations. American comics are young, hundreds of years younger than the many kinds of literary traditions, and comics has evolved in a peculiar cultural habitat, with its own strengths and weaknesses. But I think we're doing pretty well, considering! I think we're in a relatively healthy time for comics, judging by the quality and quantity of work in the piles of books I've accumulated in my house, and considering how dysfunctional the business of comics has been over the years.

What's next for you? What can we expect in 2012 and beyond?

I have a story in the new **Kramers Ergot #8**, and a story in the anthology **No Brow**. I'm a few chapters into a science-fiction story named "Rumbling" which I hope to finish, more "Fight or Run," more minicomics, more blogging, more Glenn Ganges. I'd love to do a comic book series again like "Or Else," but I haven't figured that out yet.
